

Please review the attached proposals and ensure your members give your club reps the direction in which they would like to see things go for 2005. The new BCKCA Club reps need to be elected by the clubs and present at the meeting on November 13,14/04, 9:00am at the Ramada Inn, Whatcom Road, Abbotsford. They also need to be aware that at times they will have to make judgement calls on issues that may not exactly be what their club had intended. For this reason it is important that you choose your club reps carefully.

Also please make sure that you your clubs are aware that there are three separate functions in these meetings that need to take place:

1- BCKCA 2005 Regional Race Series.

This is where the clubs determine how the 2005 BCKCA Regional Series will run. This includes items such as classes, tires, fuel, weights, location and number of events, etc. From what we are seeing and hearing this year it appears there is a lot of support for classes to be dropped down to 10 so your club should be looking at what classes are critical for their participation in the series.

2- BCKCA meeting to establish rules in BC for karting for all of the clubs.

This is where clubs present their proposals for classes, tires, engines and rule changes that impact their clubs at club functions. It is important to remember that club representatives should be aware that their may be issues that are brought up at these meetings that may not affect their particular club and therefore should be careful in how they vote.. Tires will also be an issue this year as new Homoligation of tires may impact what the racers will be racing on this year.

3- BCKCA AGM meeting in January to elect new directors and officers for BCKCA.

This is the official business meeting for BCKCA when the officers and directors are elected for the upcoming year. Reports from the directors and financial information are presented to the members at this time. It should be noted that most of the existing executive of BCKCA are stepping down this year so members should be prepared to elect new officers and directors at this time.

As a final note these engine and rule submissions are being maintained as an archive by BCKCA. In the future if clubs require engine or class specifications for their rules they can make reference to what is filed with BCKCA. BCKCA will ensure these submissions are maintained and that in the event there should be any modifications a Bulletin will be issued to ensure everyone is given an opportunity to review the changes prior to an event.

Good Luck and look forward to seeing you at the Meetings.

Don Choquer
